COLLEGE NOTES

"TRANSFORMING POWER OF EDUCATION"

First Church--Long Beach--August 27, 1922

"Transforming Power of Education"

Delightful

To see groups of y. p. ambitious for Ed

Importance of Audition

To work with one's hands honorable,
Dishonorable not to work.

To work with one's brain is better - because may be more useful. - Accomplish more.

From

Delightful to an y. p. desiring to develop & discipline the mental powers & capacity that they may be of larger service

All this wins approval, Education enables men to lay hold ~~of~~ the great forces of nature & use for our comfort, To lead & control their mates

While mental culture give mighty power to man - enabling him to measure distance to planets - put to our electricity in a hundred ways to reach almost into domain of infinity

Alone it is dangerous.
Good monkeys had not knowledge to have invented fire - forests burned & no civilization

Men now know so much knowledge that they can make destructive agencies that

with their power wipe out civilization
Those explosives & poison gasses can
literally destroy civilization. They are
where the monkeys & were had they fire

along with this knowledge must come
a higher discipline that would use these
forces for right purpose.

—

We must develop the S. along with
the mental to be well balanced.

—

The mightiest force in the world is the
S. We must develop within the brain
& heart the power to make us keen & quick
to lay hold of this subtlest & most powerful of all forces

The mind & heart not developed S. sees
only material - Have eyes to see but dont see

—

The teachings & presence of Jesus
develops the S.

The mighty transforming power he
exerts is marvelous - He opens the eyes
to the most beautiful & enduring things

This is high & noble purpose of ~~C.L.C.~~
these Y.P. — the developing &
disciplining of the intellectual along
with the culture & devel. of S. — & P.
Fine combination
