Intermission

Thank you to all of our wonderful performers!

Kodi Lee loves to perform! At only eight years old, he loves to be in front of an audience and to hear their adoration, excitement and joy. He truly elevates his being when singing on stage to levels never thought imaginable. Music is his way of communicating to the world and is an imperative part of his life. His range of musical tastes is amazing and unbelievably special. Kodi's passion is music and his dream is to always share his music with those who are willing to open their hearts to him.

Stephanie Diaz has been a part of the Orange County Children's Therapeutic Art's Center (OCCTAC) for two years. Her love for music is apparent in her singing and harp playing. Her accomplishments are evidence of the positive impact that music can have on people, and its magical qualities.

The Orange County Children's Therapeutic Arts Center (OCCTAC) is a local non-profit organization dedicated to education, empowerment and therapy of at-risk and special needs children and youth. The Center's mission is to meet the needs of a culturally and linguistically diverse population by providing a comprehensive-multicultural and multilingual-arts curricula and therapeutic programs specifically designed for at-risk and disabled children and youth from diverse communities of limited resources.

Hope University is the home to the Hi Hopes. Hope University is a fine arts program for adults with developmental disabilities and provides a supportive, therapeutic and creative program using the arts to facilitate learning and growth. Through art, music, dance and drama, artists are challenged to maximize their potential in becoming successful, contributing members of society.

Hi Hopes is a performing group of professional musicians. They have prodigious musical talent and some are actually considered musical savants. They are a very unique group. Every member has a developmental disability. In spite of their disabilities, their repertoire consists of over 300 songs committed to memory. The group was formed in 1972 and two original members remain.

The Pasadena Suzuki Music Ability Program has adapted Suzuki principles in combination with music therapy techniques in order to assist children and adults who happen to have differing abilities. The Suzuki approach is an enriching learning environment for the whole family and is dependent on parents and teachers to develop a loving and nurturing environment where children can learn naturally.

Sean Tomikawa first asked to play the violin in kindergarten when he saw the school orchestra perform and began to play the following year. Presently Sean is an 8th grader at Eagle Rock Jr./Sr. H.S. in Los Angeles where he is a member of the junior jazz band. Sean and his family have been part of the Suzuki program for over five years.

Across the Universe by the Beatles

Words are flowing our like endless rain into a paper cup
They slither while they pass, they slip away across the universe
Pools of sorrow, waves of joy are drifting through my opened mind
Possessing and caressing me

Chorus:

Jai Guru Deva Om

Nothing's gonna change my world (4x)

Images of broken light which dance before me like a million eyes
They call me on and on across the universe
Thoughts meander like a restless wind inside a letterbox
They tumble blindly as they make their way across the universe

(Chorus)

Sounds of laughter, shades of earth are ringing through my opened ears
Inciting and inviting me
Limitless undying love which shines around me like a million suns
And calls me on and on across the universe

(Chorus)

Thank you all for coming and sharing this evening with us. You can help us spread the word of the immense healing power of music therapy by sharing your experience with others.
