Dear Sir,

Just a few lines to tell you I am still alive. I have not been well since I’ve come here. I had a bad cold which won’t leave me. It is all in the climate. We are just a few feet above sea level which makes the difference. The nights and mornings are cold but it warms up during the day, but the air cuts which makes a guy feel chilly. Say Bob will you please get some pills from Drunk, it’s a cold in the chest and head? If you will do that for me I will certainly be much obliged, and when you send them to me, tell me
what they cost and I will send
the money when I get paid.
Do not be alarmed over my
condition, for if I had something
to speak this cold I would be
allright. I have been to the
doctor twice but I am the
same. Well to change the
subject have you heard from
Azmanda yet? Well she won't
know where I am I guess and
when she does find out she
will wonder why I did not
write. She has my answer
without writing for it. Well Rob
I have not much to write about
just now. I think we will go
over May 1st so if a suitcase
come home you know what is
up. Well Rob I will close for this
time hoping you all have luck
and are in the best of health.

Your Bro

Do not be alarmed over my condition, for if I had something to break this cold I would be alright. I have been to the doctor twice but I am the same. Well to change the subject have you heard from Amanda yet? Well she won’t know where I am I guess and when she does find out she will wonder why I did not write.
