Hello Sweetheart,

I feel so very nice today after talking to you early this morning. You were such a dear especially when you told me you wanted to be with me during my forthcoming furlough. Your letter, which I received yesterday, was wholly different than the previous one in that you were not as cold in it. It is now 1:00 P.M. and at the present time I'm answering all my correspondence. Naturally I must include a letter to you too.

I'm happy to hear you are finally getting some of that much earned rest. I got a kick out of your description of moving from one dresser to another-it's so typical of our habits. I know how you feel about your little castle since I've been what it is to you-isn't it dear? So you are a nut on the graphic arts, well that makes two...
of us. In fact when I had my home I often framed reproduction of famous paintings or exceptional photographs. My favorite is the "Mona Lisa" with her haunting face which is so expressive - it has every individual woman as well as all the women expressed in one face.

Last Tuesday, when coming back from L.A., we stopped to eat in Bishop at the Rainbow Cafe. There I noticed a beautiful pen and ink drawing of a Western scene. I found out it was the work of a dishwasher in the restaurant so I ordered one, which when he sent it to me I will bring along with me.

Honey it's wonderful when a grown person can still blush when being kidded about someone. It shows so much character and is expressive of a deep feeling about the person concerned. Thank you for blushing dear. Do I want to spend my furlough with you? Of course.
I do dear—why the question and question marks in your letter. Will you wake me dear and realise what I really think and how I feel about you—please.

Nor I don't think you are too outspoken in your letters, in fact, I believe you hesitate to write what you really want to. Please don't be that way dear.

Will close now darling and as you must know by this time you are and will be in my dreams and thoughts always. Love and kisses sweet.

Lovingly,
Walter

P.S. Please write often as I am doing. Soon you'll get sick and tired of my writing you so often. I hope not.
