Wesley F. Diedrich First World War Correspondence #25

Wesley F. Diedrich
Dear Folks:

Received your welcome letter some time ago but was unable to answer sooner as we are working night and day getting ready to move. It is some job to get all the junk that a regiment has packed. We have inspections by the general and his staff about twice a week and it keeps up humping to keep all of our equipment and clothing in shape. We are fully equipped and are ready to move at a moments notice.

Our regiment is the only one in the division that has been kept in woolens. We had
to turn in our dress shoes & khaki clothing while the rest of the division was issued new khaki. We are getting practically no sleep working until as late as three o'clock in the morning & getting up at five. It is impossible to imagine the amount of work that must be done before a regiment moves. Even now I am stealing time to write this letter as I am not supposed to be working down in the corral.

Was glad to hear that you invested in a car as I think you need one.
& for my use when I get back, hahah!

In regards to the civil service unit. I think it is a very good project & probably does lots of good. Am returning you the typewritten sheet in this letter.

As time is short & no further news I will close with love.

[Handwritten note: Please excuse pencil writing]
