Chapman, UCI Team Up for Mini-Medical School Series

Orange, Calif., January 5, 2005 In an effort to reach out to the Orange County community about various important health related topics, Chapman University's Department of Biological Sciences and UCIs College of Medicine have teamed to create a Mini-Medical School Lecture Series taking place Monday evenings in January at Chapman University. The free series, highlighting current health issues, features two 30-minute lectures from faculty members from each university with a Q and A session following.

We hope that the people in the audience will gain a greater knowledge of various health related topics, said Dr. Virginia Carson, professor of biological sciences. The series also shows that professors at Chapman and UCI have many common research interests.

Chapman and UCI previously worked together on a similar lecture series in January 2003.

The first of the three lectures will be held on Monday, Jan. 10 with Chapmans Dr. Venita Lovelace-Chandler, who will speak on Breast Health: Myths and Facts for Women and Men and Dr. John Butler from UCI, who will discuss Surgical Trends in Breast Cancer. All lectures are from 7-9 p.m. in Beckman Hall 104. Lectures are free and open to the public. For more information, contact the Department of Biological Sciences at (714) 628-7255.

Series Schedule

Jan. 10:

Venita Lovelace-Chandler, Ph.D. Breast Health: Myths and Facts for Women and Men
John Butler, M.D. Surgical Trends in Breast Cancer

Jan. 17:

Ky E. Kugler, Ed.D. and Jason Bennet, DA From Injury to Rehab to Performance
Kevin Armstrong, M.D. Orthopedic Management of Common Sports Injuries

Jan. 24:

Georg H. Eifert, Ph.D. Anorexia: The Dangerous Path to Feeling Better About Oneself
Rachel Reitan, M.D. Eating Disorders During Pregnancy

NOTE: All lectures are from 7-9 p.m. in Beckman Hall 104 on the Chapman University campus in Orange.
